SELECTED BIBLIOGRAPHY

The operation of the gold standard is discussed in:

For the presentation and evaluation of the interwar experience, see:

An examination of the post-World War II international monetary experience is found in:

*For the “original sin,” see:*

The recent global financial crisis is examined in:

Reforms of the international monetary system are examined in:

The current trade problems and reforms are examined in:

For the international debt and growth problems of developing countries, as well as financial crises in emerging markets, see:

INTERNet

Data and analyses of the operation of the present international monetary and trading systems are regularly conducted by the International Monetary Fund (IMF), the Organization for Economic Cooperation and Development (OECD), the Bank for International Settlements (BIS), the World Trade Organization (WTO), and the World Bank (WB). Many of these are posted on their web sites at:
http://www.imf.org
http://www.oecd.org
http://www.bis.org
http://www.wto.org
http://www.worldbank.org

For historical exchange rate, interest rate, and price of gold data during the gold standard, see:
http://www.nber.org/databases/macrohistory/contents/index.html

For the operation of the international monetary system and International Monetary Fund, as well as proposals for reforms of the international monetary system, see:

To compare price discipline under fixed and flexible exchange rate systems, examine historical CPI data for various countries at:
http://www.economagic.com/blsint.htm

For the Special Drawing Rights (SDR) “valuation basket: percentage weights,” see:

GDP and trade data are found at:
http://www.worldbank.org
http://www.wto.org

Financial data on emerging markets and their crises are found at:
http://www.worldbank.org
http://www.emgmkts.com
